---

## SKILLS

**Languages** - JavaScript, HTML, CSS, Python, SQL, Typescript, Mongo

**Database** - PostgreSQL, MongoDB

**Libraries and Frameworks** - React.js, Express.js, Styled Components

**Other** - RESTful API, JSON API

## SOFTWARE DEVELOPMENT PROJECTS

March 2022 - Present

### Mindify | PERN stack

- Prompt: Create a full CRUD functional application with the PERN stack as focus.
- Utilized a PERN stack (Postgres, Express, React.js, Node.js) to build a full stack application in 7 days. With full create, read, update, delete (CRUD) operations hitting all RESTful API calls.
- Created an application with a group of four, serving as the liaison between the front-end and back-end team. Managed expectations as well as help debug on both ends.

### Recipe Central | MERN stack

- Utilized React.js components for the front-end of the application creating an application that organizes cooking recipes from user generated data.
- Made RESTful API fetch calls to an Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
- Used Mongoose to define schemas for MongoDB collections.
- Implemented ES6 tagged template literals with Styled-Components along CSS3 to provide style and flexbox/grid layout of the application.

### Letterle | HTML, CSS, Javascript

- Created a clone of Wordle utilizing strictly base Javascript, HTML, and CSS.
- Modeled application after Wordle, building logic to mimic answer-checking that, in-turn, adjust responsive CSS that dynamically change colors of correct/incorrect letters and placement.
- Implemented light/dark mode toggles as a stretch goal within the project.

## PROFESSIONAL EXPERIENCE

### Tax Resolution Specialist, Gusto, LLC | Atlanta, GA

August 2021 - March 2022

- Interfaced with numerous Federal and State Tax Departments to resolve disputes between government agencies and small businesses.
- Incorporated knowledge of payroll tax framework to arrive at an acceptable arrangement regarding outstanding payments or new regulations.

### Premier Client Consultant I, ADP, LLC | Alpharetta, GA

September 2017 - May 2021

- Promoted into the advanced "Premier" role to serve the business unit's largest and most profitable firms.
- Developed one-on-one relationships with 20+ firms, worked diligently to acquire each client's trust and confidence, and maintained a Client Engagement Score of 10 (rated by each client on a 1 to 10 scale).
- Collaborated daily with Leadership, Technical Teams, and government agencies to resolve, on a timely basis, clients' payroll questions and problems.

## EDUCATION

### GENERAL ASSEMBLY | REMOTE

*Software Engineering Immersive*

March 2022 - May 2022

Full-stack software engineering immersive student in an intensive, 12-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.
